

MOHAMMAD SHARIF, EIT

ENVIRONMENTAL ENGINEER

209- 688-0000 ▪ engr.sharif209@gmail.com ▪ Stockton, CA 95212

PROFESSIONAL SUMMARY

Environmental Engineer and EIT specializing in landfill compliance programs and environmental monitoring. Demonstrates expertise in managing full-cycle environmental projects, from field operations to technical documentation and regulatory reporting. Successfully lead multiple environmental compliance projects while ensuring adherence to local and state regulations. Combines hands-on field experience with strong technical documentation capabilities and proven project management skills. Additional background in business leadership enhances ability to deliver complex environmental projects on time and within budget.

SKILLS

- Landfill Gas (LFG) System Monitoring & Compliance
- Environmental Sampling & Analysis (Groundwater, Stormwater)
- Technical Report Writing (Monthly, Quarterly, Semi-Annual Reports)
- SWPPP Development & Implementation
- AutoCAD Civil 3D, Web application development
- Soil Investigation & Logging

EXPERIENCE

- **ENVIRONMENTAL ENGINEER** Jacobs
Sacramento, CA April 2025 - Present
- **STAFF ENGINEER II** APTIM Environmental & Infrastructure inc
Concord, CA July 2022 - March 2025
 - Landfill Gas & Compliance:
 - Manage LFG collection system compliance for multiple sites under Rule 1150.1
 - Monitor and report GCCS data, optimize system performance
 - Prepare monthly, quarterly, and semi-annual regulatory reports
 - Develop monitoring plans and compliance documentation
 - Project Management:
 - Lead environmental projects (\$25K-\$100K budget range)
 - Coordinate with agencies and contractors
 - Write technical proposals and project amendments
 - Supervise field teams and subcontractors
 - Field Operations:
 - Install and monitor dewatering wells to 200-foot depth
 - Perform soil logging and documentation
 - Conduct groundwater and stormwater sampling
 - Serve as site Health & Safety Officer

Technical Design:

- Create AutoCAD designs for hydraulic systems
- Design environmental monitoring programs
- Develop SWPPPs for composting and transfer stations
- Implement compliance tracking systems

■ **SMALL BUSINESS OWNER** Zoomlock Wireless Inc Stockton, CA

July 2012 - July 2022

Business Development:

- Founded and operated full-service electronics repair business
- Built customer base through service quality and reliability
- Established store operations and management systems
- Managed inventory, finances, and daily operations

Technical Operations:

- Developed diagnostic software for device troubleshooting
- Created repair tracking and quality control systems
- Implemented microsoldering and board-level repair services
- Designed technical training programs for new staff

Management:

- Trained and supervised repair technicians
- Maintained vendor relationships and supply chain
- Established repair documentation standards
- Ensured consistent repair quality and customer satisfaction

EDUCATION

■ **BACHELOR OF SCIENCE (B.S.) IN CIVIL ENGINEERING** California State University-Sacramento, Sacramento

GPA 3.4
December 2022

Relevant Coursework

- Applied Soil Mechanic and Foundation Engineering
- Open Channel Hydraulics
- Engineering Geology
- Environmental Engineering
- Reinforced Concrete Design
- Senior Project - Project Manager

Awards & Honors

- Dean's List - Spring 2020
- Dean's List - Spring 2022
- Dean's List - Fall 2021

CERTIFICATIONS

- Engineer-in-Training (EIT) Certificate No. EIT 180474, National Council of Examiners for Engineering and Surveying (NCEES), Oct 2023
- 40 Hour HAZWOPER
